- Spanish B1

PROFESSIONAL SUMMARY

Frontend engineer with expertise in React, TypeScript and modern web architectures. Builds high-performance applications with optimized rendering, scalable state management and intuitive interfaces. Focused on delivering maintainable solutions that balance technical excellence with business impact.

PROFESSIONAL EXPERIENCE

FRONTEND DEVELOPER

CALL TO ACTION / Nov 2020 – Feb 2025

- **Developed scalable web applications and complex marketing platforms** using **React**, **TypeScript** and **modern frontend tooling**, architecting modular component libraries with **TailwindCSS** and **Material UI** to ensure maintainability and cross-browser responsiveness.
- Built and enhanced a customer portal using **React**, **Next** and **TypeScript**, improving code reliability, SSR/SSG, and developer experience.
- Led the migration of a legacy **jQuery-based CRM** to a modern **React-Redux architecture**, boosting performance, scalability, and maintainability.
- **Improved website performance by 50%** through optimization techniques, refined UI/UX and streamlined collaboration between developers, designers, and marketing teams.

MARKUP DEVELOPER / HTML CODER

TCD DESIGN STUDIO / Mar 2020 – Sep 2020

- **Developed pixel-perfect**, responsive web layouts from Figma and Photoshop mockups using **HTML**, **CSS** and **JavaScript**.
- Translated **static designs into interactive, cross-browser web pages**, ensuring seamless user experiences.
- **Optimized HTML/CSS** for faster load times, improved accessibility and SEO best practices, boosting site performance.
- Worked closely with designers and stakeholders to implement modern UI/UX solutions, aligning with business goals.
- **Integrated animations and interactive elements** using **GSAP** and **CSS transitions**, enhancing visual appeal and user interaction.
